FOREWORD

The features of the DIRECTORY which were new last year and in some cases represented quite radical changes, have been very generally approved and are therefore continued in the twenty-sixth volume.

The map is corrected to date and the names of all residents of Aberdeen and of the territory between the Brookline line and Commonwealth Avenue are included in the DIRECTORY. The new department containing a record of Births, Marriages, Death, etc. is continued and in time will be most valuable for reference. The membership of the various clubs is corrected and the late rules and regulations of the Post Office Department are given in a convenient form for ready reference. The Parcel's Post is a most valuable addition to our Postal facilities with Foreign Countries.

The enterprise and continued success of Brookline business men is evidenced throughout the book

Respectfully,

W. A. GREENOUGH & CO.

REGULATIONS CONCERNING FIRE ALARMS

First alarm to be given by striking four rounds on all bells

Second alarm to be given by striking three blows on all bells

Third alarm to be given by striking ten blows on all bells

1 One stroke at 12 M Washington time, and 9 p m every evening

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters

INFORMATION FOR YOU

The key to your nearest fire alarm box, you will find in small box attached to door of fire box

To give an alarm, break glass in front of small box, turn the key you will find there, open the door to fire box, pull down the hook in the box once (without jerking) and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which, report immediately to the superintendent or at the Station House, the box out of order

Before ringing an alarm be sure that a fire actually exists

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible

MISCELLANEOUS DEPARTMENT

All persons giving fire alarms are requested to remain by the box, if possible, to direct the firemen to the fire. Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given

After the first alarm has been rung in, all other alarms or signals are given only by the engineers

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law

SPECIAL NOTICE

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make all necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration

Roll-a-Way Window Screens

C. F. PURINTON CO., SO. EASTON, MASS.

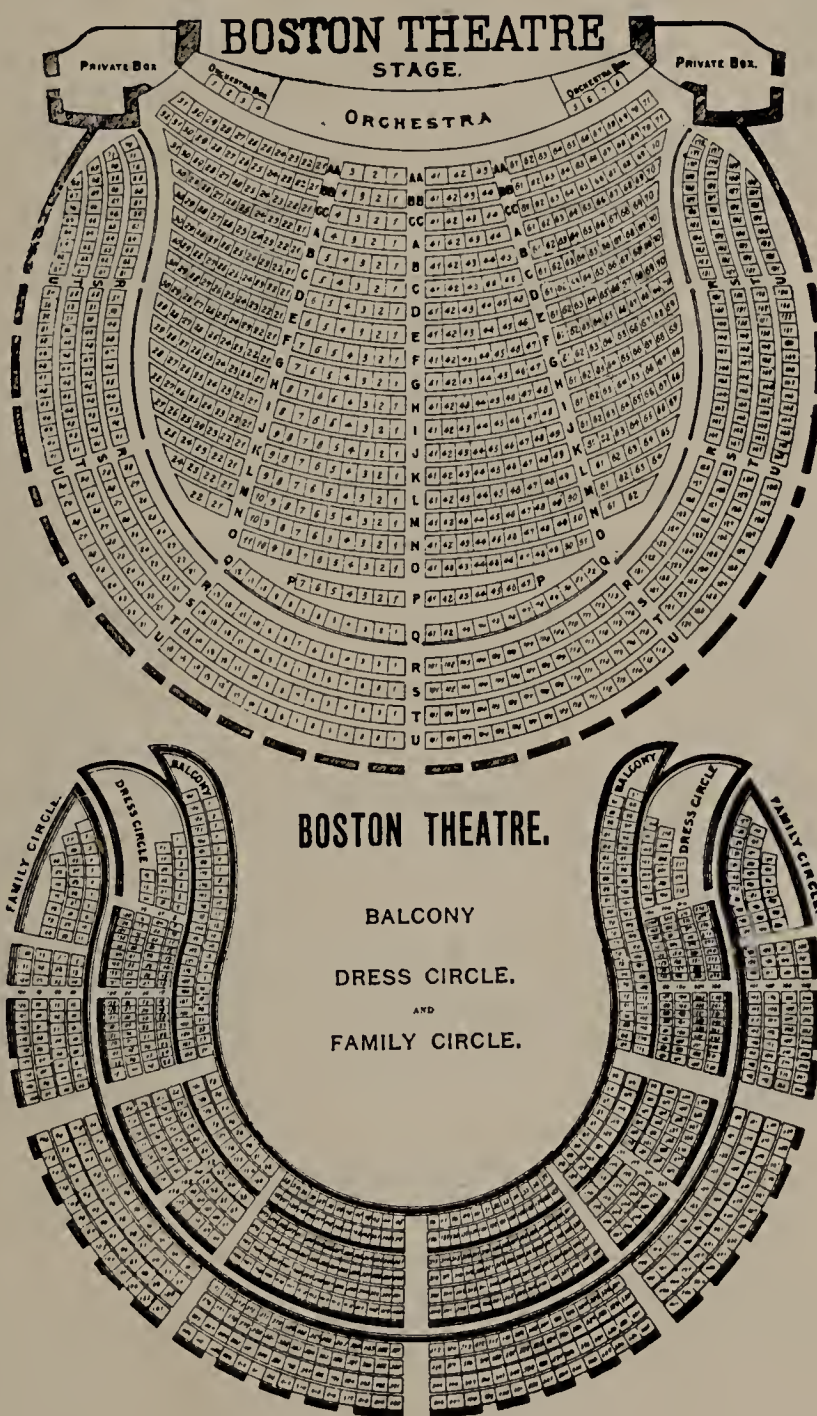

POINTS OF MERIT

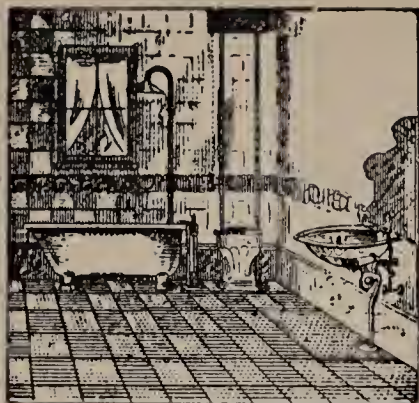

1. When the screen is not raised, it is thoroughly protected from the weather by being rolled up in its case.
2. The screen is raised only as high as the window, and does not leave wire cloth behind or in front of the glass to look through, as is the case with all outside or inside sliding screens.
3. The screen operates freely, and will always continue to do so, not being subject to the swelling and shrinking of the wood-work, that occurs to outside sliding screens which are exposed to the elements.
4. It never requires removing from the window casing the year round, but can be conveniently taken out if desired. The labor of taking out and packing away the old kind of screen being thus entirely avoided.
5. Its bordering connections serve as weather strips, and a dust preventive when windows are closed, both in summer and winter.
6. The whole light from the window may be obtained on cool or dark stormy days.
7. The screen is entirely out of the way when washing windows or when the blinds need adjusting.
8. When it rains, outside screens always soil the windows. This never occurs with the rolling screens: consequently, with them, the necessity of washing windows is much less frequent.
9. The wire cloth, being under tension, always remains flat.
10. The screen, as a whole, is ornamental.
11. It is furnished in colors to match the color of the window sash.

A TASTE OF QUALITY — PAINE'S

We plan for you pretty and ingenious schemes for the effective treatment of the walls of the modern house. Here are a few examples:

1. AN ARTISTIC PLAN

Green burlap paper for dado, chair rail of old weathered oak, tapestry paper in deep foliage above the rail. Curtains of India crepe. :: :: :: :: :: :: :: ::

2. A HARMONIOUS RECEPTION ROOM

Absinthe wall paper in Adam design, ivory wood-work, soft damask curtains in old rose color with Battenberg laces. :: :: :: :: :: :: :: :: :: :: :: ::

3. A FRESH, DAINY BEDROOM

The lower two-thirds of the wall covered with moire paper in ciel blue, plate rail of ivory, upper third of trellis pattern with morning glories, curtains of rose silk, with dotted Swiss muslin. :: :: :: :: :: :: :: :: :: ::

We have many similar schemes, incorporating some of our new French and American wall papers of the better sort.
